

Great Snacks **Start Here**

Great Tasting Snacks From TH Foods.

The way a snack looks and smells. How it tastes on the tongue. Crunches in the mouth. How it satisfies a craving. The taste sensation that leaves them wanting more, even when they are full. That's what you get from TH Foods.

For over 30 years, we've enticed customers with premium rice crackers, and a wide array of sesame, corn and specialty snack sensations in both Private Label and Co-Pack applications. Today, we continue to deliver innovative, better-for-you, tasty snack products. All based upon solid consumer research, proprietary baking processes and an open collaboration with our customers.

Great tasting snacks from TH Foods start in our imagination. They end up snatched off the shelves of your natural or gluten-free sets, main cracker aisle or deli department.

Private Label

Innovative, on-trend and unique to your brand – our private label offerings are custom-formulated and consistently delivered to your desired flavor profile, claim and presentation.

Bulk Snack Mix Components

Our proprietary process enables us to make the best tasting sesame, corn and specialty snack mix components. With over 40 items to choose from, our customers increasingly come to us for new ideas, innovative flavor combinations and consistent results.

Retail

TH Foods is well-recognized for its CrunchMaster® and Harvest Stone® brands.

Creating Better-For-You - With You.

The inspiration to try new snack ideas and have fun in the process, that's where great tasting snacks come from. We empower our people to be creative. To work closely with consumers and our customers. To dare to do something new.

Looking for flavor you've never tasted before? Whether it's the subtle note of rosemary or the get up and go of an aji amarillo Peruvian-inspired snack, we can help you satisfy any pallet.

We specialize in "Better-for-You" options. Our tasty line of rice cracker creations is made possible because of our proprietary Usuyaki baking process. Usuyaki - meaning thin and flat - is a special Japanese process for baking rice crackers. It's a technique that is only available through us in North America.

The taste. The texture. The CRUNCH. It's what keeps customers coming back for more.

Claims for Fame

Your customers are informed. They are looking for transparency. Let us know how we can help you meet their lifestyle goals with great-tasting, better-for-you snacks.

Private Label Specialty Crackers & Snacks

TH Foods offers premium rice crackers and rice-based products for your private label or store brand program. Baked or popped, we offer an assortment of options, textures, inclusions, seasonings, sizes and shapes. All of our baked crackers and snacks are gluten-free and may incorporate a variety of inclusions:

- Sesame
- Flax
- Quinoa
- Sorghum
- Chia
- Brown Rice
- Amaranth
- Millet
- Teff
- Flax
- Chickpea
- Seaweed
- Farro
- Potato
- Corn
- Protein
- Fiber
- Fruit
- Vegetables

We bring innovation to snacking. Our large R&D staff incorporates insights from targeted consumer research and develops custom formulations in our full pilot plant – all while collaborating with our customers along the way. We are flexible in meeting your product needs, production timetables and packaging requirements.

And the **crunch** of our crackers, is something your customers will **crave**.

Use as a mix-in or a stand-alone item.

Bulk Snack Mix Components

We are a leader in creating delicious snack mix components with new tastes and textures that will not only enhance your mix, but really help it stand out. In fact, we make over 40 different varieties in a broad range of shapes, sizes and delectable flavors.

It's all the result of our targeted research, product development within our pilot plant and proprietary manufacturing processes. Our dedicated food scientists and R&D staff discover new consumer trends. They use that intelligence and their snack mix expertise to create innovative, delicious components that taste - oh, so good.

Maybe it's a thin Hot Cajun Corn Stick, a sweet and crunchy Honey Roast Stick with a touch of pineapple and habanero. It could be a wide Ancient Grain Stick with a hint of blueberry, Jalapeño Cheddar Sesame Stick or Salted Corn Chips with Flax. Whatever it is, that new taste we create together could be what puts your mix in the grocery cart, and customers coming back for more.

The Difference is in the Details.

Strong on trends. Built on research. Concepted in our imaginations and formulated by our skilled food scientists in our full pilot plant. Great tasting snacks from TH Foods will satisfy your customers' cravings and help you develop a product portfolio that will have them coming back for more.

Speed-to-Market: Concept-to-Commercialization

Quick turnaround. It's one of the things we do best. Sometimes our customers come to us with just an idea. Maybe they are looking for inspiration. Great taste. A new flavor. Subtle textures. Unique shapes and sizes. Whatever the challenge, our experienced R&D team is excited to partner with our customers and work quickly to deliver mouth watering concepts. And, we don't need 12 to 18 months. Our goal is to deliver in only six.

Custom Solutions & Innovation

New ideas, new products, new packaging and new technologies help keep innovation our claim to fame. With a passionate R&D team, an inspired research chef and a full pilot plant, we can create a product that meets your needs and exceeds your expectations.

Pilot Plant

Food Quality & Safety

Food quality and safety is our top priority. Our 24/7 quality team conducts constant process and product monitoring along with our frequent 3rd party audits. Plus, we are dedicated to maintaining the highest quality certifications.

- SQF Level 3 certified
- GMP program
- Full HACCP plan
- Certified gluten-free by GFCO
- Certified organic by USDA
- In-house gluten testing lab
- Peanut-Free facility

Packaging

TH Foods offers a wide variety of packaging options to meet your needs.

- Pillow bags
- Pillow bags with tear notches and nitrogen flush available with bag-in-box
- 4-cell plastic trays with poly or foil overwrap
- Single serve
- Stand up resealable pouches
- Club size packaging options and industrial uses
- Bulk packaging for food service and industrial uses

High Quality, Raw Material Sourcing

Only the best products will do for our customers. It starts with our critical selection of strategic partners to source the finest raw ingredients in the industry. For example:

Rice – Most of our rice is medium grain and harvested fresh from California.

Sesame Seeds – Another primary ingredient for TH Foods; we do our best to source 100% U.S. grown seed.

Facilities

TH Foods has duplicated production facilities located in the Midwest and West Coast, contributing to our quick turnaround time and reduced freight costs for our customers.
